A Web developer proficient in HTML, CSS, and JavaScript. Skilled in building responsive and user-friendly web interfaces using modern frameworks like React.. Passionate about delivering high-quality, visually appealing, and performant web applications.

Skills

- **Front-End :** Javascript , React JS
- **Backend:** Javascript , python(leaning)
- **Data-Base:** MongoDB
- **Languages:** Javascript , Python , C++(Basic)
- **Others:** Tailwind CSS , GSAP, Restful APIs

Projects

- **Little Tools[[Link](#)] :** (Javascript, tailwind, GSAP)

  A website where you will get 18 tools which are very helpful for your daily life like img background remover, img to pdf converter, youtube thumbnail downloader, youtube video tags extracter and many more..
  Btw all tools in this website are also created by me with the help of youtube and AI's like chat GPT and Gemini....

- **Megh visuals [[Link](#)]:** (Javascript, tailwind, GSAP)

  A animated website for my friend's video agency. In this website i tried to show my GSAP or web animation ability. And also this website is fully responsive.

- **Little Food recipe app [[Link](#)]:** (React JS, tailwind)

  Well this is my react practice project which i created to test my react ability like context, routing and hooks.
